Contents

Strategy One: Support for Drug Free Moms & Babies Program	3
Strategy Two: Addiction Treatment Stigma Training	4
Strategy Three: Glucose Testing at April Health Fair	5
Strategy Four: Exploration of Transportation Solutions	6

Strategy One: Support for Drug Free Moms & Babies Program

Priority Targeted: This strategy targets the community health concern of substance use and abuse by providing support to the program and coordinator. St. Joseph’s makes space available for activities of this program, as well as marketing materials and potentially supplies.

Program/Initiative	Drug Free Moms & Babies
Objectives	Provide practical space, marketing, and supply resources to the Drug Free Moms & Babies program during the 2020-2022 cycle.
Activities	<ul style="list-style-type: none"> ● Determine space needs for meetings and activities ● Determine marketing needs ● Develop marketing materials/a marketing plan ● Determine need for supplies and how the hospital could help
Planning Partners	<ul style="list-style-type: none"> ● Kari Frye, SUDC Coordinator ● Shelby Wilson, Opioid Coordinator ● Angela Tenney, Clinical Coordinator ● Lisa Wharton, VP of Marketing, Public Relations, & Foundation
Implementation Partners	<ul style="list-style-type: none"> ● Kari Frye, SUDC Coordinator ● Shelby Wilson, Opioid Coordinator ● Perinatal Partnership ● Community Care of West Virginia, Inc. (potential)
Resources	<ul style="list-style-type: none"> ● Time ● Space ● Financial resources
Evaluation Activities	<ul style="list-style-type: none"> ● Number of program meetings/activities ● Activity details as appropriate ● Number of participants ● Financial Resources
Point of Contact	<ul style="list-style-type: none"> ● Kari Frye, SUDC Coordinator ● Shelby Wilson, Opioid Coordinator ● Angela Tenney, Clinical Coordinator

Strategy Two: Addiction Treatment Stigma Training

Priority Targeted: This strategy aims to reduce stigma surrounding addiction and treatment. In 2019 a staff training was conducted by the Harrison County Resource Network, and the training will be repeated for staff during this cycle.

Program/Initiative	Addiction Treatment Stigma Training
Objective(s) (SMART)	Host virtual training for St. Joseph’s staff focused on reducing stigma surrounding addiction and treatment.
Activities	<ul style="list-style-type: none"> ● Produce training material in NetLearning program ● Schedule training ● Develop any needed materials
Planning Partners	<ul style="list-style-type: none"> ● Elizabeth Shahan, Harrison County Resource Network ● All St. Joseph’s Hospital departments
Implementation Partners	<ul style="list-style-type: none"> ● Elizabeth Shahan, Harrison County Resource Network ● Libby Stingo, Director of Education
Resources	<ul style="list-style-type: none"> ● Time ● Production of training material in NetLearning program ● Financial resources of recording
Evaluation Activities	<ul style="list-style-type: none"> ● Mandatory staff education – count details
Point of Contact	<ul style="list-style-type: none"> ● Libby Stingo, Director of Education

Strategy Three: Buckhannon Rotary Blood Screenings at SJH

Priority Targeted: A multi-weekend community event will be held at St. Joseph’s Hospital on four to six Saturdays in the summer of 2020, and will include glucose screenings among other blood chemistry information. This strategy works to target the topic of disease prevention and management. SJH has received multiple inquiries from patients and providers about the Rotary Blood Screenings. Many patients use these as their yearly or bi-annual screenings for a variety of health conditions. This is not intended to replace a SJH-provided screening event that was planned for April and cancelled due to COVID, but will offer a smaller scale option to those who do need testing now and will hopefully ease the volume if the fall SJH fall screening, if it can be offered.

Program/Initiative	Glucose Testing at Health Fair
Objective(s) (SMART)	Host 4-6 screenings, providing glucose and other blood chemistry information.
Activities	<ul style="list-style-type: none"> ● Determine staffing and supply needs ● Determine schedule
Planning Partners	<ul style="list-style-type: none"> ● Buckhannon-Upshur Rotary Club ● Hospital departments
Implementation Partners	<ul style="list-style-type: none"> ● Buckhannon-Upshur Rotary Club ● Hospital departments, primarily Laboratory
Resources	<ul style="list-style-type: none"> ● Time ● Financial resources ● Testing supplies
Evaluation Activities	<ul style="list-style-type: none"> ● Date of event ● # screenings performed ● # referred for follow-up, if tracked
Point of Contact	<ul style="list-style-type: none"> ● Lisa Wharton, VP of Marketing, Public Relations, & Foundation ● Mike Walton, Director of Laboratory

Strategy Four: Exploration of Transportation Solutions

Priority Targeted: St. Joseph’s has undertaken activities to explore the pressing local problem of a lack of transportation access, which is often seen as a barrier to receiving care within Upshur County.

Program/Initiative	Exploration of Transportation Solutions
Objective(s) (SMART)	Track missed appointments/reasons in February and March of 2020. Use this data to explore solutions already being discussed with Country Roads Transit.
Activities	<ul style="list-style-type: none"> ● Track missed appointments and reasons ● Explore Senior Center funding options ● Explore federal matching dollar options ● Explore ride voucher program options ● Advertising activities, based on outcome of the above
Planning Partners	<ul style="list-style-type: none"> ● St. Joseph’s Hospital ● Country Roads Transit ● Upshur County Senior Center
Implementation Partners	<ul style="list-style-type: none"> ● St. Joseph’s Hospital ● Country Roads Transit ● Upshur County Senior Center
Resources	<ul style="list-style-type: none"> ● Time ● Financial resources
Evaluation Activities	<ul style="list-style-type: none"> ● % missed appointments due to transportation ● # options explored with community partners ● # of people transported
Point of Contact	<ul style="list-style-type: none"> ● Tyler Broadwater, Project Manager
