A community newsletter from WVU Medicine Barnesville Hospital

SPRING 2021 NEWSLETTER

## CEO's Letter

*"Our patients now have access to WVU Medicine's specialists providing high-quality services right here in the Ohio Valley."*

Entering into our relationship with the WVU Health System nearly two years ago was one of the best decisions we have made at Barnesville Hospital. Our patients and employees have reaped the reward of affiliating with a world-class healthcare system. Barnesville Hospital officially joined the WVU Medicine Health System on April 1, 2021.

This transition to the WVU Medicine Health System allows for convenient access to exceptional care to patients when and where they need it. Our patients now have access to WVU Medicine's specialists providing high-quality services right here in the Ohio Valley.

A prime example of this is the WVU Medicine Telestroke Program which allows us to connect with some of the top neurologists allowing us to quickly diagnose and treat stroke patients. We are excited for even greater things to come in the future.

*Thank you,*

**David Phillips**  
*President and CEO*

## Question: What made you decide to get into medicine?

**Answer:** When I was young, growing up in Beallsville, I saw how long it often took to get an appointment to see your family provider or how you had to travel close to an hour to see one. I saw a lot of my friends and family just go without healthcare because of those difficulties. So, it became a dream of mine to be able to provide that care myself one day in my home area. For me, it's about caring for my friends, family, and neighbors.

## Question: What do you love to do in your free time?

**Answer:** In my free time, I like to spend time with my husband and two daughters. We especially like to swim, hike, and go camping.

## Question: Do you have any interesting hobbies?

**Answer:** My hobbies include playing the violin since I was 9 years old. I love to play hymns or old fiddle tunes, like "Swallow Tail Jig" and "Tennessee Waltz".

# Lab o r a t o r y S e r v i c e s

The Barnesville Hospital Laboratory provides lab services 24 hours a day, seven days a week for emergency and inpatient services, and 7 am - 7:30 pm Monday-Friday and 7 am - noon on Saturday for outpatient services.

## **Lab tests we offer include:**

Breath Alcohol Testing, Drug Screening, Employee Screening, General Chemistry, Hematology & Coagulation, Pregnancy, Return-to-Duty, Serology, and Urinalysis

Barnesville Hospital Laboratory is a draw site for LabCorp. Patients whose insurance dictates that their labs be sent to LabCorp for testing are now invited to use our hospital.

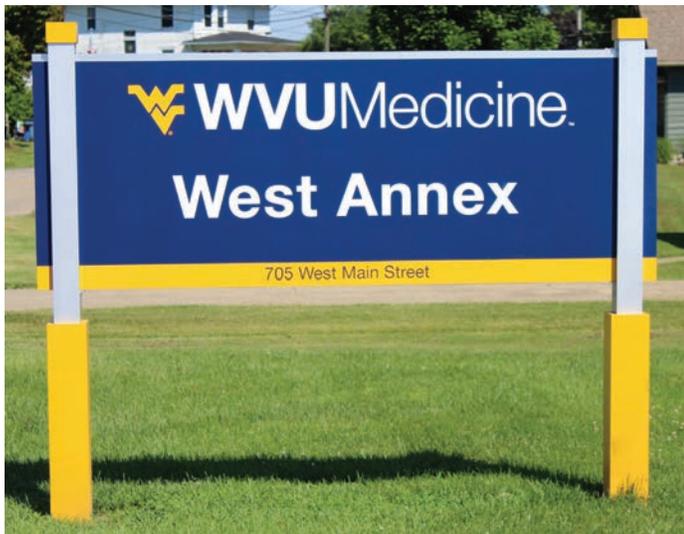

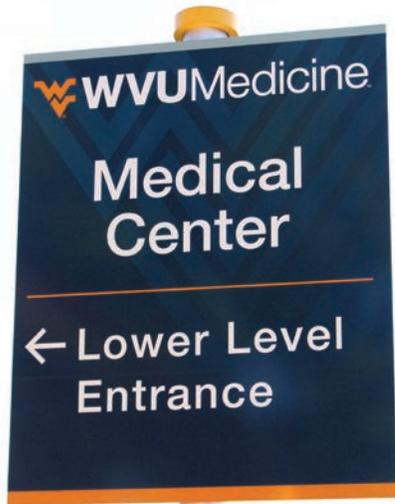

## **Appointments:**

Phone: 740-425-5105

For employee lab screens, call Shawn Meier at 740-425-5133.
