Energy for Performance[®] 90-Day Journal

Start Date:

End Date:

Name:

About This Journal

Start each day in a positive way, with inspiration, intention, and reflection. Each step is designed to deepen your self-discovery practice and create sustainable change in your personal and professional life.

Over the next 90 days we encourage you to **start each day** by mindfully setting your intention and identifying your goals. **To close out the day**, reflect on what went well, the rituals practiced, unexpected setbacks, and how to make tomorrow even better. Remember, a setback is a setup for a comeback.

At the end of each week, you will be prompted to check in with your accountability partner (or write your new story) and complete a brief weekly review, where you can reflect on:

- **Key highlights and lessons**
- **Energy dimensions** (physical, emotional, mental, and spiritual energy)
- **Ritual progress**

At the end of the 90 days, you will have completed your training mission and this journal will provide insight into your personal growth and how you can invest your energy in the future.

Getting Started

**Performance,
health, and
happiness are
grounded in
the skillfull
management
of energy.**

— Dr. Jim Loehr

What kind of impact do you want to have on the world and on the people that matter to you?

Purpose

Your 90-day training mission should focus on an area of your life that you want to change that is currently out of alignment with your purpose.

90-Day Training Mission

Your rituals are the daily actions that will help you achieve your training mission.
Be specific, even including when and where the ritual will take place.

Ritual 1

I will...

time(s) a day/a week/as needed.
will hold me accountable.

Ritual 2

I will...

time(s) a day/a week/as needed.
will hold me accountable.

Ritual 3

I will...

time(s) a day/a week/as needed.
will hold me accountable.

Ritual 4

I will...

time(s) a day/a week/as needed.
will hold me accountable.

Spiritual Energy

Fully aligned - Your actions are connected to your deepest values and beliefs.

Not aligned - You may lose your passion, drive, or perseverance.

Mental Energy

Focused - You bring focus, presence, and concentration to the here and now.

Not focused - You tend to be easily distracted and it is difficult to stay focused and be present in the here and now.

Emotional Energy

High quality - You experience more positive than negative emotions and actively practice emotional recovery.

Low quality - You experience more negative than positive emotions and sometimes feel emotionally exhausted.

Physical Energy

Full - You feel energized, full of vitality, fueled, and rested.

Empty - You may get easily tired or simply have no energy to get you through the day.

Tips for Writing Your New Story

Every two weeks you will have the opportunity to write your new story. Throughout this process, keep in mind that effective new stories are:

1. Grounded in truth with accurate, vivid details

Factual and objective to the greatest extent possible.

2. Linked to concrete events and consequences

Clearly articulates the full scope of actions, feelings, and consequences.

3. More positive than negative

Balance the negative emotions that may arise from addressing your truth by creating space for positive ones to lead the way forward.

4. Told in a sincere, highly authentic voice

Ensure you have a story that proclaims, “this is me, this is what’s been going on, and this is what I am going to do about it.”

5. Comprehensive and complete

Go deep to get at some real traction.

6. Written to take you where you want to go

Articulate a direction that is explicitly short-term and implicitly long-term.

7. Guided by your deepest values and beliefs

Upon reading or hearing, anyone would know what it is you value and care about.

8. Reflective of your best voice

Inspires you to sit up and take notice.

Day 1 2 3 4 5 6

Week 3/13

What made your day great?

Think about what you're grateful for, what brought you joy?

Revisit the moments, people and things that made your day a little bit better.

making time for each of my rituals today really helped me unwind from an otherwise hectic day!

I am grateful for my health, my supportive family, and the opportunity to do the things that allow me to be my best self. Like jogging and meditating.

Rituals I focused on today:

List out any rituals you performed today.

Read for fun
meditated

Morning jog
Family game night (Tech free!)

Today's obstacles or challenges I came across:

Was there anything that prevented you from completing your goal or from being your best self today?

I got a great night's sleep and was happy to get to work early, but an accident on the highway caused me to miss our morning meeting. This meant we didn't get the client proposal out today.

How can I make tomorrow even better?

Finish your day by noting the lessons you'd like to carry forward.

Give myself more time than I think I need. Things may come up that are outside of my control, so I should account for that whenever possible.

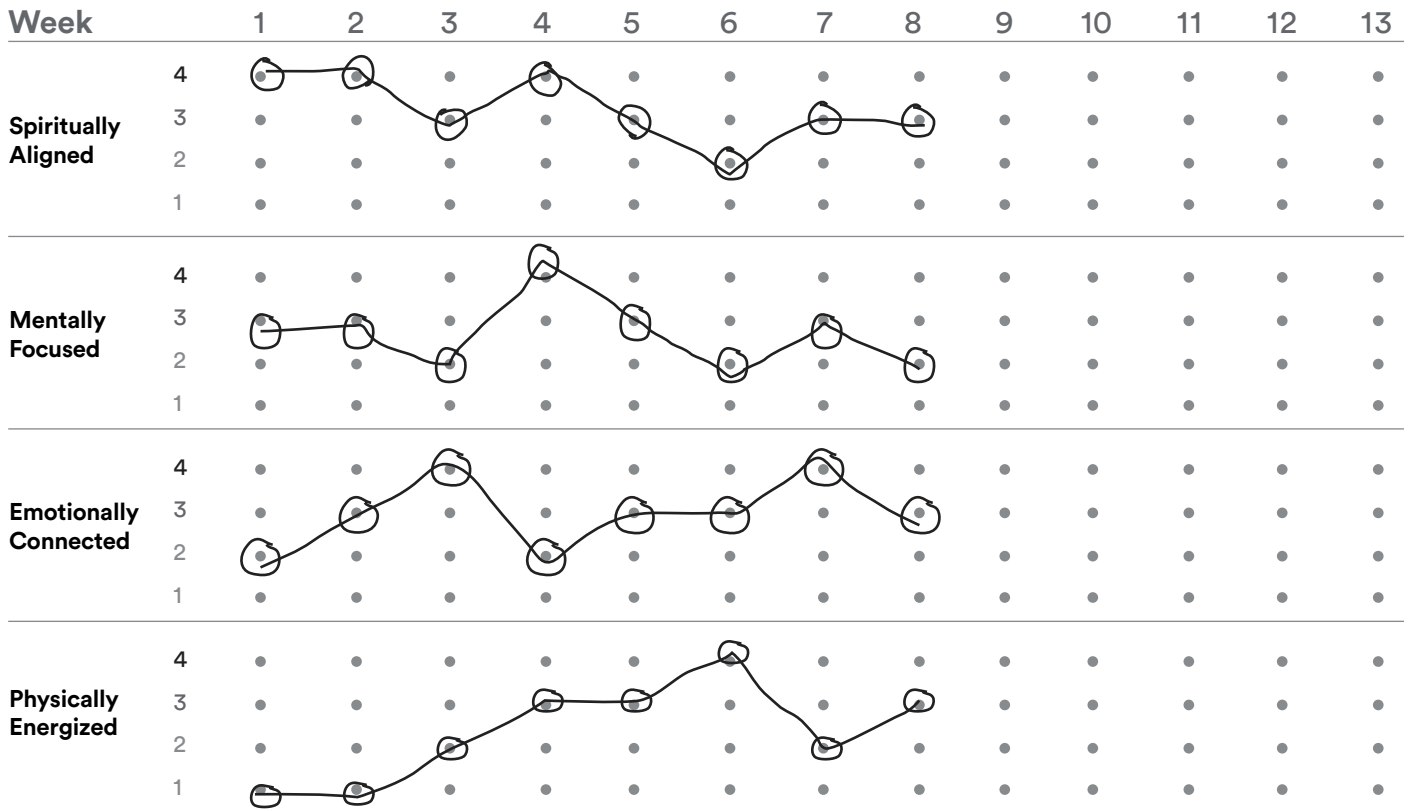

Ritual Tracking

Shade in the square to represent how well you performed the rituals each week.

Energy Audit

Circle the dot that shows the quality of your energy for each dimension for the week (4 being the highest quality, 1 being the lowest). As you progress, connect the dots to visualize the flow of your energy over time.

Checking In

**Keep steadily
growing in your
life. As soon
as you say that
you're the best,

Congratulations on completing week thirteen!

Take a moment to look back on the past week by:

- Reviewing your **Highlights and Lessons** in the space below.
- Reflecting on your rituals and energy dimensions in the **Tracking Progress** section.
- **Checking in with your accountability partner** on their rituals and share how you are doing with yours. **Tracking Progress** section.
