

CAMDEN CLARK OCCUPATIONAL MEDICINE SERVICES

Camden Clark Occupational Medicine provides full spectrum, multidisciplinary services to meet the health and safety needs of workers and employers in our region.

We provide pre-placement and fitness-for-duty examinations for employees in many industries, including truck drivers and public safety workers. Employee monitoring programs to assess hearing loss, chemical exposure, and drug and alcohol screening are available. Assistance is also provided to ensure employer compliance with federal and state regulations. If there is a workplace injury or exposure, our experts provide prompt and efficient treatment focused on getting the injured worker rapidly back to work.
