MICU Code Response

♦ CODE button is pushed for any life threatening emergency. If the patient is ICU status, appropriate ICU team should be contacted to respond. If the patient is step down or floor status, CALL OVERHEAD CODE BLUE (7777). Unit clerk should be notified immediately and overhead page in MICU unit "all available staff to Room X."

♦ STAFF ASSIST button is pushed for any non-life threatening situation where staff members need help and cannot leave the room

♦ Progressa beds may be connected to the wall at the head of the bed so that bed exit alarms alert over the call bell system

(Located on back of boom arm)
