Burn Injury Guideline

ABCs/Trauma Resuscitation

Other Traumatic Injuries

No

Stable Trauma Injuries

Yes

Unstable Trauma Injuries—Once Stable

Burn Evaluation:
Calculate TBSA using Rule of 9’s including only partial/full thickness burns

Any partial or deeper to face, neck, eyes, hands, feet, genitalia, or over any major joint, significant electrical (including lightning), chemical, inhalation burn, or burns to patients with major co-morbidities

Initiate Burn Resuscitation using Parkland Formula and transfer to Mercy Burn Center or West Penn Burn Center

>10 TBSA or any full thickness burn

<10 TBSA

Admit JMMTC, consider Plastic Surgery Consult
