I AM A MOUNTAINEER

HELP CREATE A LEGACY

For more than 30 years, WVU Medicine Children's has been committed to serving those in need across the state and beyond its borders through patient care, educating future healthcare providers, and advancing research. Whether it's in the hospital or at a clinic in their community, all children and women receive care no matter their ability to pay.

However, future generations of Mountaineers need your help.

The children and families of West Virginia and the surrounding region need additional space in the new WVU Medicine Children's tower so they can receive the care and support they need and find respite from the days, weeks, and months it can take to care for the tiniest and sickest Mountaineers.

We have the rare occasion to stand together and create change for the children and families of West Virginia by building a dream of hope, healing, and health and forever changing the course of the state.

STRIKE FORCEFULLY MAKE AN IMPRESSION LEAVE A MARK

As former Mountaineer athletes, we have the unique opportunity to do something no one else has done. Let's start a legacy of what it means to be a Mountaineer. Let's walk the talk. Let's lead. Let's challenge. Join me on this team of impact players.

Make your mark!

YOUR HELP MEANS EVERYTHING
