Reviewed and deemed not equivalent

Notes about transfer courses
1. All courses on this list have been reviewed and approved as an equivalent for one of CNE's general studies or prerequisite requirements.
2. Prerequisite coursework will not be articulated onto CNE transcripts.
3. Some Anatomy & Phsyiology Sequence equivalents require two courses. A bold "and" is in between the two required transfer course numbers and a bold "AND" is in between the two titles of the transfer courses to help identify when two courses are required.
4. CNE does not require completion of Anatomy & Physiology labs. Some transfer schools required registration in both the lecture and the lab. *If considering the pursuit of further education after the diploma RN, the lab(s) may be required.
5. While CNE has approved credit from several LPN programs for our diploma RN program, it does not mean that other colleges/universities will accept LPN credit for BSN, MSN, etc. programs.
6. If you have taken or would like to take a course not on this list, send a syllabus for the course to CNEAdmissions@wvmedicine.org.
