

## Is hospice care right for you or your loved one?

- 1) Been hospitalized or gone to the ER several times in past 6 months?
- 2) Been making more frequent phone calls to your physician?
- 3) Started taking medication to lessen physical pain?
- 4) Started spending most of the day in a chair or bed?
- 5) Fallen several times over the past 6 months?
- 6) Started needing help with one or more of the following?  
(Bathing, dressing, eating, getting out of bed, walking)
- 7) Started feeling weaker or more tired
- 8) Experienced weight loss making clothes noticeably looser?
- 9) Noticed a shortness of breath, even while resting?
- 10) Been told by a doctor that life expectancy is limited?

If you answered yes to any of these questions, hospice care may be right for you. All evaluations are free and anyone can make a referral.
