

Graduation Requirements

Students enrolled in the Radiation Therapy Program must complete the following to be eligible for graduation and receive authorization from program officials that they have completed the necessary didactic and clinical criteria to sit for the ARRT certification examination in Radiation therapy.

1. Achieve a passing grade (78% or >) in each didactic course.
2. Achieve a passing grade (86% or >) in each clinical course (Applied Therapeutic Procedures I and II) by the end of each semester.
3. Successfully complete all clinical competency requirements in accordance with published clinical education standards policy.
4. Complete the published number of clinical hours within the provisions established by the program's attendance policy.
5. Demonstrate critical thinking, effective communication, and problem solving skills within the framework of the education structure.
6. Demonstrate ethical and professional behavior within the standards of the institution and the ARRT's code of ethics.
7. Demonstrate completion of an Associate's degree (or higher) from an accredited post-secondary institution in order to be eligible to sit for the primary certification exam in Radiation Therapy administered by the ARRT. The degree can be in any field or discipline.
8. Meet all financial obligations to the Program and the Institution.
