

Radiologic Technology Education Programs

Radiation Therapy Education Program **Mission Statement, Program Goals & Student Learning Outcomes**

The Radiation Therapy Program at West Virginia University Hospitals is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT) (www.jrcert.org). The following Mission Statement, Goals, and Student Learning Outcomes are developed in accordance with the 2014 JRCERT Standards for an Accredited Educational Program in Radiation Therapy. Outcome data, benchmarks and assessment mechanisms are defined in the Program's annual Outcome Assessment Report and on the Program Effectiveness Data form located on the web-site (www.wvuhradtech.com)

Mission Statement

The mission of the Radiation Therapy education program at West Virginia University Hospitals is to provide quality instruction in the therapeutic applications of ionizing radiations in order to develop entry-level, technically competent professional radiation therapists who are able to meet the needs of patients and the expectations of potential employers. The program is dedicated to assuring the quality and safety of patient care in the delivery of radiation therapy treatments to the citizens of West Virginia and the surrounding region by serving as the sole radiation therapy education program in the state.

The WVUH Radiation Oncology faculty is genuinely involved with the educational process thereby providing students with an educational environment that is conducive to attaining positive learning outcomes while providing comprehensive clinical experiences and patient care opportunities.

The program is committed to helping students attain the educational goals of the program by giving them the opportunity to demonstrate the skills, knowledge, attitudes and self-direction needed to perform competently, ethically, and productively within the radiation therapy profession.

Program Goals & Student Learning Outcomes

- 1. Students will demonstrate entry-level clinical competence in Radiation Therapy.**
 - 1.1 Students will demonstrate appropriate immobilization and positioning when preparing patients for treatment and simulation.
 - 1.2 Students will correctly operate equipment and accessories to deliver prescribed therapeutic doses.
 - 1.3 Students will demonstrate adequate clinical skills to perform as an entry level therapist.

- 2. Students will practice effective communication skills.**
 - 2.1 Students will demonstrate effective verbal communication skills.
 - 2.2 Students will demonstrate effective written communication skills.

3. Students will employ critical thinking / problem solving skills.

- 3.1 Students will assess patient needs and adapt radiation therapy procedures as required
- 3.2 Students will demonstrate the application of didactic knowledge in the clinical setting.

4. Students will exhibit professional behavior.

- 4.1 Students will demonstrate commitment and responsibility to the radiation therapy profession.
- 4.2 Students will demonstrate positive attitudes.
- 4.3 Students will exhibit ethical behavior and judgment.

5 Students will employ critical thinking and problem solving skills.

- 5.1 Students will evaluate their clinical performance to assess professional development.
- 5.2 Students will demonstrate dependability in the clinical workplace.
- 5.3 Students will reflect evidence of professional growth.
