

Radiologic Technology Education Programs

Radiography Program

Mission Statement, Program Goals & Student Learning Outcomes

The Radiography Program at West Virginia University Hospitals is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT) (www.jrcert.org). The following Mission Statement, Goals, and Student Learning Outcomes are developed in accordance with the 2014 JRCERT Standards for an Accredited Educational Program in Radiography. Outcome data, benchmarks and assessment mechanisms are defined in the Program's annual Outcome Assessment Report and on the Program Effectiveness Data form located on the web-site (www.wvuhradtech.com)

Mission Statement

The Radiography program at West Virginia University Hospitals serves to facilitate the growth and development of the entry-level professional in the Radiologic Sciences thus supporting the mission of our sponsoring institution. Through continued technological advancement and a strong commitment to education, West Virginia University Hospitals serves as the foundation on which students can cultivate and expand their knowledge of the technical, professional, and philosophical aspects of Radiologic Technology and the health care environment. The program strives to provide our students with an educational environment that is conducive to attaining positive learning outcomes and is comprehensive in providing clinical experience and patient care opportunities.

Program Goals & Student Learning Outcomes

- 1) Students will demonstrate entry-level clinical competence in diagnostic imaging.**
 - 1.1 Students will demonstrate appropriate positioning skills.
 - 1.2 Students will select and manipulate appropriate technical factors.
 - 1.3 Students will utilize appropriate radiation protection procedures
