

Mission Statement

Echocardiography Program

The Echocardiography program at West Virginia University Hospitals serves to facilitate the growth and development of the student in cardiac sonographic imaging. Through continued technological advancement and a strong commitment to education, West Virginia University Hospitals serves as the foundation on which students can cultivate and expand their knowledge of the technical, professional, and philosophical aspects of medical imaging and the healthcare environment. The program strives to provide our students with an educational environment that is conducive to attaining positive learning outcomes and is comprehensive in providing clinical experience and patient care opportunities.

Goals

1. To prepare competent entry-level echocardiographers in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains.
2. To develop students with effective communication skills.
3. To instruct students in the use of critical thinking / problem solving skills.
4. To encourage students to demonstrate professionalism
