

Transfer Credit / Advanced Placement / Part-time Enrollment / Distance Education Policy

This policy serves to identify the Program's philosophy relative to transfer credit, advance placement into the program, and part-time student attendance, and distance education.

With consideration to the following:

1. The program is 12 months in length.
2. The course content is specific in nature and is exclusive to Magnetic Resonance Imaging.
3. The didactic curriculum is closely correlated to the clinical education process.
4. The educational structure is sequential in nature.
5. The nature of effective clinical education requires on-site participation with direct patient interaction.
6. The enrollment process is competitive and a limited number of positions are available.

The program does not make provisions for transfer credit, advance placement or part-time enrollment or distance education.
