Note: We will do our best to honor your request for a specific provider, but, in some cases, this may cause delay in access. After review of studies and clinical documentation, we may schedule alternate triage for your patient to provide the most appropriate and timely evaluation. We will do our best to keep you informed. **Pertinent documentation** should be faxed with this form including, when possible: imaging reports, MRI or CT results, operative and injection reports related to the evaluation, injection studies, medications, allergies, and all other necessary medical documents.
