

DOWNLOAD OUR APP

Open the Apple app store or Android Market, search "WVU Medicine," and download

To access the app menu, tap the three lines at the top left of your screen

To track a patient's status, enter the above code on the appropriate tracking screen

SURGICAL PATIENTS

Choose Surgery Status from the landing page of the app

Enter your code

You will get notifications on the current status of the patient

ER STATUS

Choose ER Status from the landing page of the app

Enter the code, then enter the first three characters of last name

You will get notifications on the current status of the patient

WAITING ROOM STATUS

Choose Waiting Room Status from the landing page of the app

Enter the code, then enter the first three characters of last name

You will be notified when it's time to be seen
