

**St. Joseph's Hospital (STJ)**

**FINANCIAL ASSISTANCE POLICY - ATTACHMENT IV**

**Calculation of Amounts Generally Billed (AGB)**

To calculate *Amounts Generally Billed (AGB)*, we have chosen to use a “look-back” method based on actual past claims paid to STJ by Medicare fee-for-service together with all private health insurers. This calculation is based on all Medicare and private health insurance payments received for inpatient and outpatient acute services in calendar year 2023.

<b>Payer Group</b>	<b>Total Inpatient and Outpatient Charges for 2023</b>	<b>Total Inpatient and Outpatient Allowed Amount for 2023</b>	<b>AGB for 2023 Inpatient and Outpatient Services</b>
<b>Total of Medicare and Ins.</b>	186,222,695	106,781,533	57%

Based on the data listed above, STJ allowed a blended discount rate for Medicare and private health insurance. This volume is equivalent to a 43% discount rate. We will allow a 50% discount for all uninsured patients according to our Billing and Collections Policy. This discount will be recalculated annually (Next Update April 1, 2025).
